

KEEP HER AWAY

*There's a man
looks just after you
doese everything to make you stay
with every move he makes
another chance I take
got to get her away*

*You wanna keep her away (4x)
from me*

*I was down
three nights ago
the night I spented alone
you just think you want to keep
and you won't me just to leave
we will be going away*

You wanna keep her away

*She's not your's
she's not mine
you will lost her anyway
she'll take her chance
find a new romance
you are not the one for her
just a look
of people that you find
will remind you of her
oh, son you're a stupid kind
you wanna lose her anyway*

*You wanna keep her away ...
You wanna keep her away ...*
